

Bin Wagon video text transcript

Video showing illustration of a bin wagon reaching a road junction, then turning into the road to continue driving.

The video zooms into the wagon and shows its barrel body rotating.

The video then shows bins being lifted up by the back of the wagon, before emptying their waste contents into the barrel of the truck.

The video then shows the barrel rotating the rubbish inside.

The wagon then pulls into a depot and slows to a stationary position. The back of the truck then opens and the rotating barrel pushes the rubbish out on to the floor.
