

ORDNANCE SURVEY

PLAN SD 5235 & PLAN SD 5335

PARCEL NUMBERS AND ACREAGES
The number and acreage of each parcel of land is shown within the parcel. It is important when identifying a parcel to specify the number(s) of the plan(s) on which it falls.
IN PARCELS DIVIDED BY THE SHEET EDGE, THE ACREAGES ARE SHOWN TO SHEET EDGE ONLY.

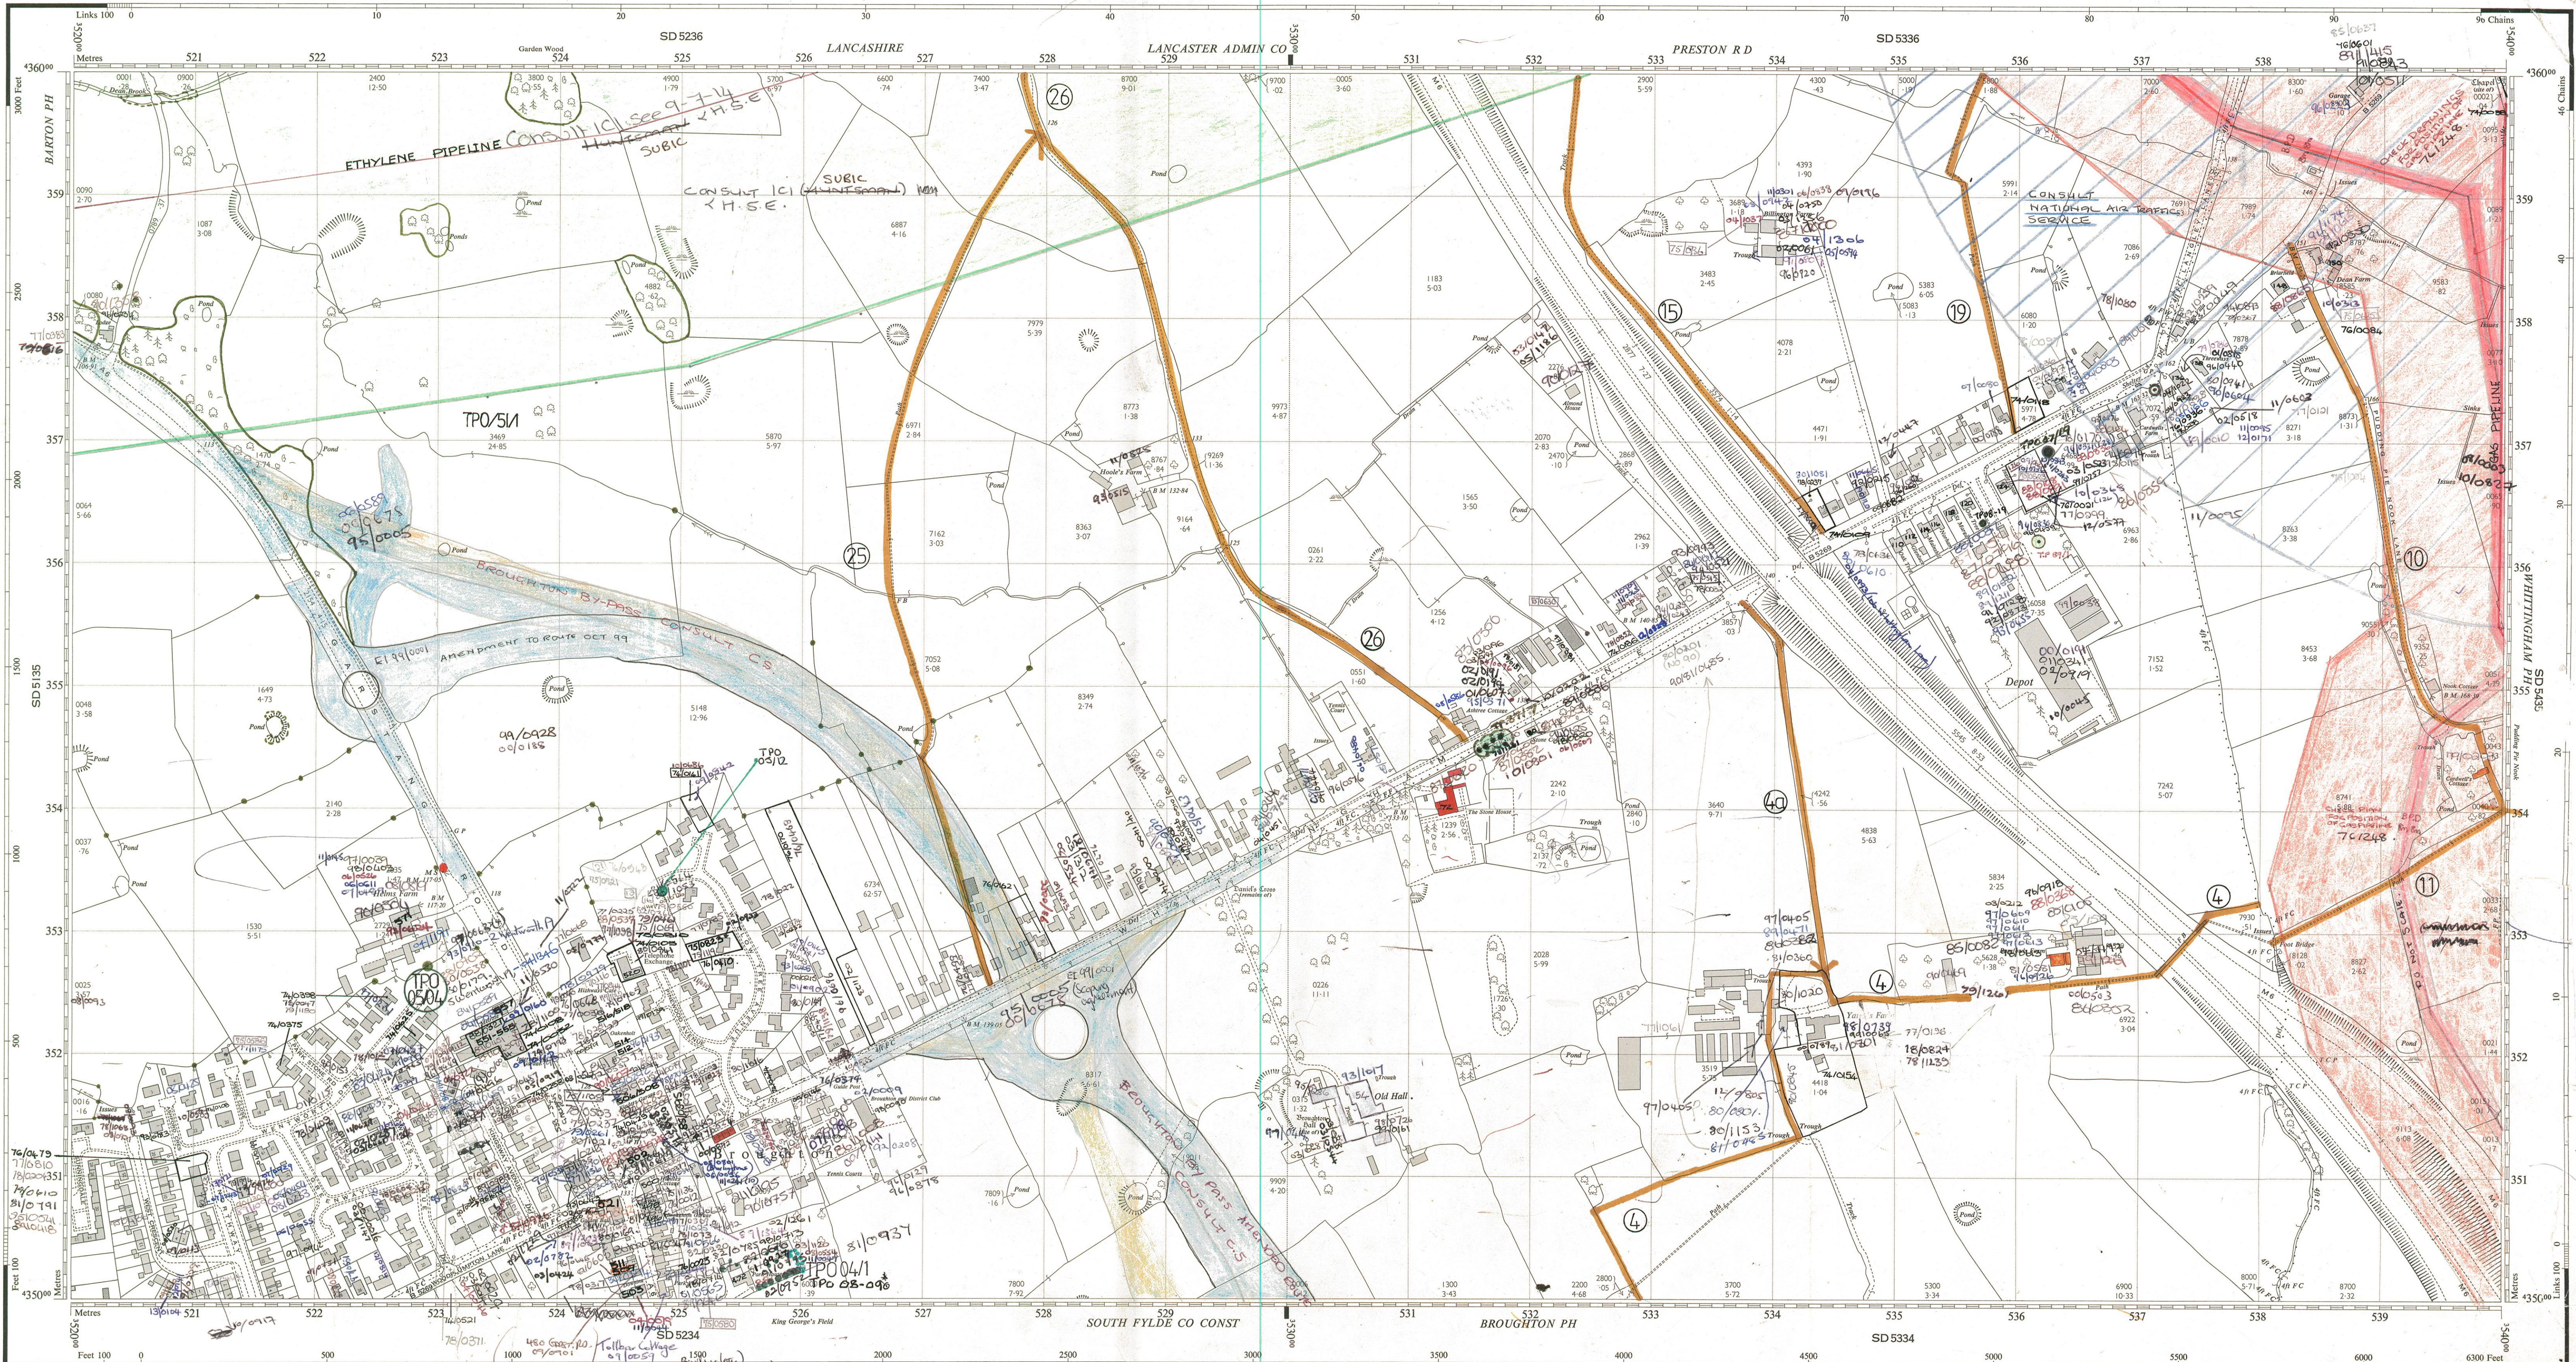

Revised August 1965
Levelled 1960.61

Scale: 1:2500 or 25.344 inches to 1 mile

Revised September 1965
Levelled 1961

The West half of this sheet is Plan SD 5235
The East half of this sheet is Plan SD 5335

PLAN SD 5235 & PLAN SD 5335

Made and published by the Director General of the Ordnance Survey, Chessington, Surrey, 1966.
Reconstituted from former County Series plans 1960. Last revised 1965.

2008-09

REFERENCE

For fuller information see Reference Card published separately.

NATIONAL GRID REFERENCE

The lines on the plan form part of the National Grid and are spaced at 100 metre intervals. To give a large scale reference defining the position of a point to the nearest 10 metres proceed as follows:-

EASTING	NORTHING
Take west edge of square in which point lies and read the figures opposite this line on NORTH and SOUTH margins. Estimate tens of metres from the grid line.	Take south edge of square in which point lies and read the figures opposite this line on EAST and WEST margins. Estimate tens of metres from the grid line.
EXAMPLE: Y in Yates's Farm	
314	353
3146	3532

TIN METRE REFERENCE: SD 53463523

For further information see "The Projection of Ordnance Survey Maps and Plans and the National Reference System". The representation on this plan of a road, path or track is no evidence of the existence of a right of way. It appears only on this plan to represent 100% of an area on the ground. The alignment of tracks where shown is approximate.
