### REFERENCE

For fuller information see Reference Card published separately.

#### NATIONAL GRID REFERENCE

The lines on the plan form part of the National Grid and are spaced at 100 metre intervals.  
To give a large scale reference defining the position of a point to the nearest 10 metres proceed as follows:—

EASTING		NORTHING	
Take west edge of square in which point lies and read the figures opposite this line on NORTH and SOUTH margins		Take south edge of square in which point lies and read the figures opposite this line on EAST and WEST margins	
523	3	321	5
Estimate tens of metres from the grid line		Estimate tens of metres from the grid line	
TEN METRE REFERENCE: 5233		SD 52333215	

For further information see "The Projection for Ordnance Survey Maps and Plans and the National Reference System"  
The representation on this plan of a road, track or path is no evidence of the existence of a right of way.  
1 square inch on this plan represents 249 of an acre on the ground.  
The alignment of tunnels where shown is approximate.
