

F16/3

COMPILATION DATA

(a) Sep 1958
(b) Mar 1988

Levelled..... 1981
Boundaries..... Mar 1988

BOUNDARY MEREINGS

BB	Base of Bank	FF	Face of Fence
CB	Centre of Bank	FW	Face of Wall
CDS	Centre of Covered Stream	RR	Root of Hedge
CD	Centre of Drain, etc.	SR	Side of River, etc.
CR	Centre of Road, etc.	TB	Top of Bank
CS	Centre of Stream, etc.	TH	Track of Hedge
Def	Defaced	TK S	Track of Stream
EK	Edge of Kerb	Und	Undefined

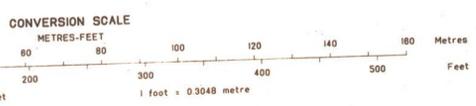

Imperial equivalents for metric boundary mereings
0.91m = 3ft 1.22m = 4ft

Heights are given in metres above the Newlyn Datum.
Bench mark lists which may contain later levelling information, also particulars of bench marks to which no values have been shown, are obtainable from the Ordnance Survey, Southampton.
The representation on this plan of a road, track or path is no evidence of the existence of a right of way.
The alignment of tunnels where shown is approximate.

BOUNDARIES

ENGLAND AND WALES	SCOTLAND
County	Region or Islands Area
District	District
London Borough	Not shown
Civil Parish (England)	
Community (Wales)	Electoral Division
Electoral Division	Ward
Ward	Constituency (County, Burgh or European Assembly)
Constituency (County, Burgh or European Assembly)	Boro Const Bdy
	Euro Const Bdy
	Burgh Const Bdy
	Co Const Bdy
	ED Bdy
	Ward Bdy
	LB Bdy

Coincident boundaries are shown by the first appropriate symbol above, e.g. Boro Const and ED Bdy.
For Ordnance Survey purposes County Boundary is deemed to be the limit of the parish structure whether or not a parish area adjoins.

Made and published by the Ordnance Survey, Southampton.
Reproduction in whole or in part by any means is prohibited without the prior permission of the Ordnance Survey.

NATIONAL GRID REFERENCE

The grid lines form part of the National Grid and are at 100 metre intervals. To give a unique reference defining the position of a point to within 10 metres proceed as follows:-

EXAMPLE from sheet TD 0529 SE

- Take the two letters preceding the sheet number..... TQ
- Take the west edge of the grid square in which the point lies and read the figures opposite this line on the north or south margin..... 058
- Estimate tens of metres from the grid line to the point (distance $\times 2$)..... 8
- The resulting four figure number is the Easting..... 0588
- Take the south edge of the grid square in which the point lies and read the figures opposite this line on the east or west margin..... 281
- Estimate tens of metres from the grid line to the point (distance $\times 2$)..... 8
- The resulting four figure number is the Northing..... 2818

The full ten metre reference is given by writing first the letters, followed by the Easting and then by the Northing..... TQ 05882818

For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.'
One grid square on this plan represents one hectare on the ground.
To convert hectares to acres multiply by 2.47105

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Ordnance Survey, Southampton or to the local Ordnance Survey office.

Digital data for this map and others at 1:250, 1:2500 and 1:10000 scales is available on magnetic tape from the Ordnance Survey.

Details of symbols and abbreviations used can be obtained from the Ordnance Survey, Southampton.

PLAN SD 5529 NW

F16/3

Levelled 1961
 Boundaries Jan 1973

(a) Sep 1958
 (b) Jan 1973

HEIGHTS are given in METRES above the Newlyn Datum.
 Bench mark lists which may contain later levelling information, also particulars of bench marks to which no values have been shown, are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path is no evidence of the existence of a right of way.

The alignment of tunnels where shown is approximate.

- Site of antiquity
- Change of boundary mering
- Culvert
- Direction of water flow
- Electricity pylon
- ETL Electricity Transmission Line
- △ Triangulation station
- ts Traverse station (permanent)
- ↑ Bench mark
- ↑ Surface level
- ↑ Revision point
- ↑ Revision point & bench mark coincident

- 1 metre = 3.2808 feet
 1 foot = 0.3048 metre
