(a) Oct 1957
(b) Sep 1971

- (a) Surveyed.
- (b) Revised.

HEIGHTS are given in METRES above the Newlyn Datum.
Bench mark lists which may contain later levelling information, also
particulars of bench marks to which no values have been shown,
are obtainable from the Director General, Ordnance Survey.

The representation on this plan of a road, track or path
is no evidence of the existence of a right of way.

The alignment of tunnels where shown is approximate.

Made and published by the Director General of the Ordnance Survey, Southampton.

NATIONAL GRID REFERENCE

The grid lines form part of the national grid and are at 100 metre intervals. To give a reference defining the position of a point to within 10 metres proceed as follows:-

EXAMPLE:	No 20 LATHAM STREET
----------	---------------------

EASTING		NORTHERN
Take west edge of 100 metre square in which point lies and read the figures opposite this line on the north or south margin	541	Takes south edge of 100 metres square in which point lies and read the figures opposite this line on the east or west margin
Estimate tens of metres from grid line to the point	8	Estimate tens of metres from grid line to the point
	5418	288
TEN METRE REFERENCE: SD 54182885		288

For further information see 'An Introduction to the Projection for Ordnance Survey Maps and the National Reference System.'

BOUNDARY MERGING

.....Base of Bank	C S.	Centre of Stream, etc.	S R.	Side of River, etc.
.....Centre of Bank	Def.	Defaced	T B.	Top of Bank
of Covered Stream	E K.	Edge of Kerb	Tk H.	Track of Hedge
.....Centre of Drain, etc.	F F, F W.	Face of Fence, Wall	Tk S.	Track of Stream
.....Root of Bank, etc.	R H.	Root of Hedge	Und.	Undefined

imperial equivalents for metric boundary measurements
0.91m = 3ft 1.22m = 4ft

PLAN SD 5428 NW

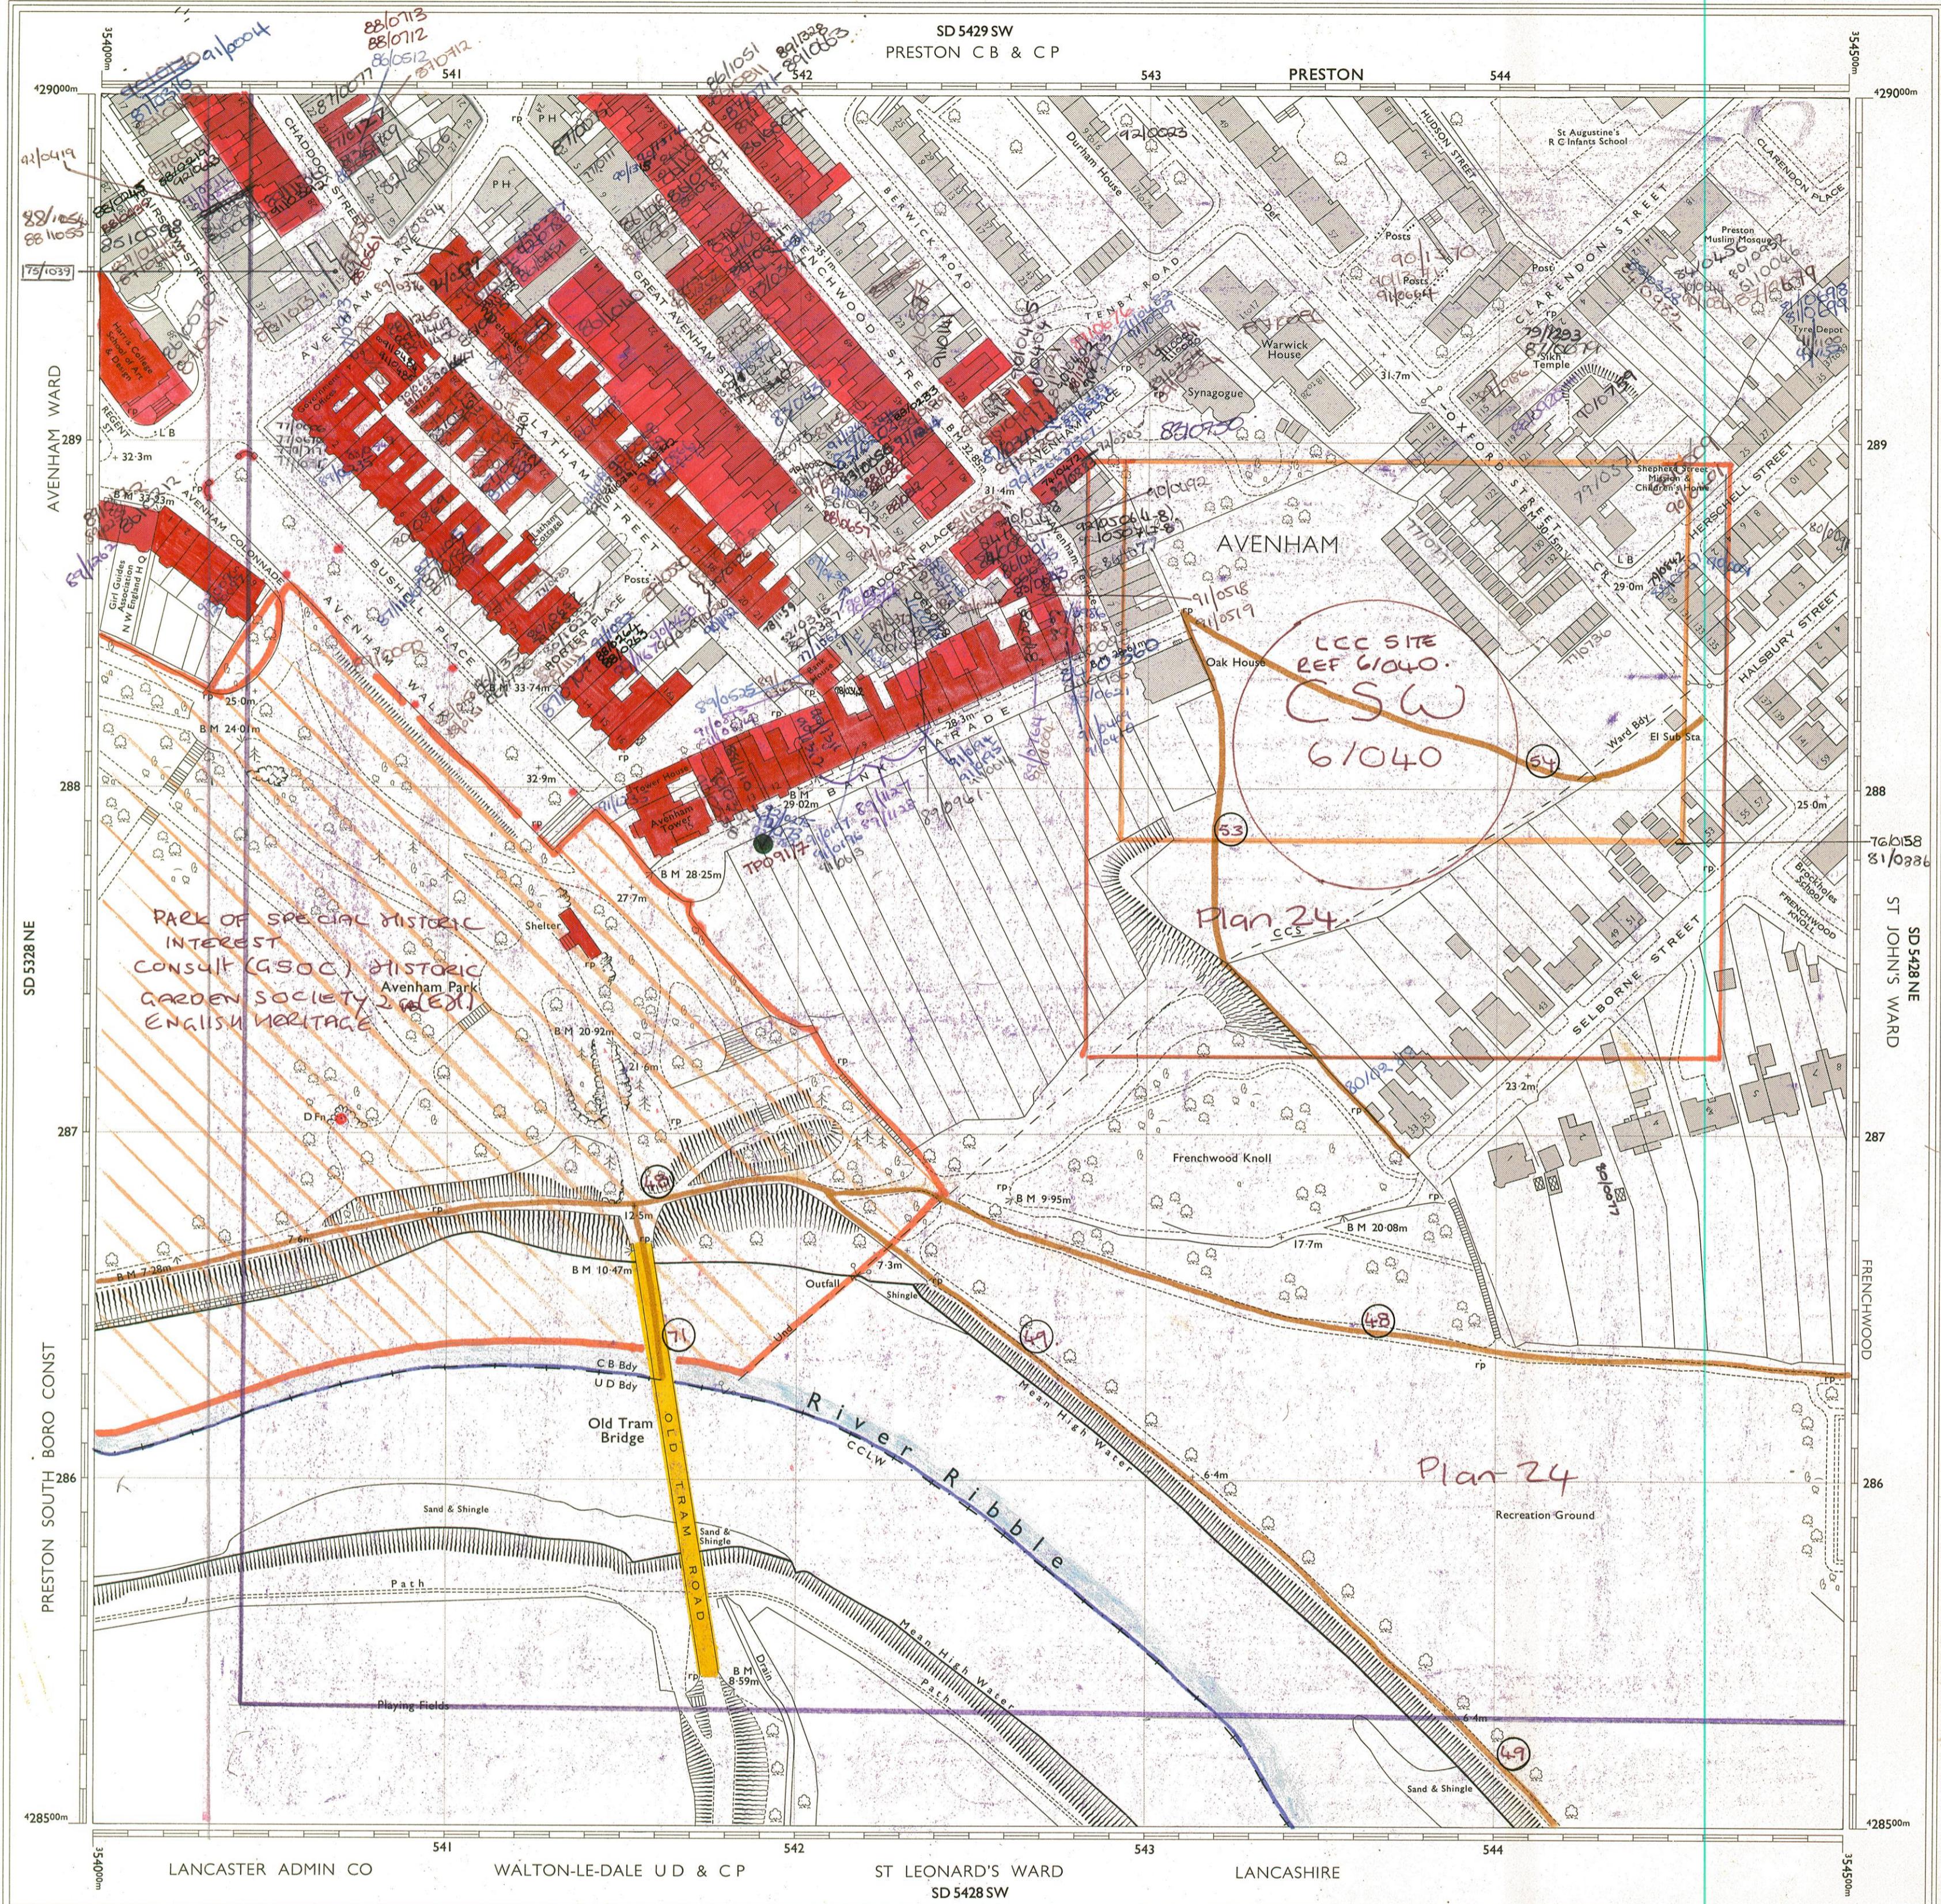

Surveys of changes since the publication of this plan may be available. Enquiries should be addressed to the Director General or to the local Ordnance Survey office.

One grid square on this plan represents one hectare on the ground.
To convert hectares to acres multiply by 2.47105

erial equivalents for metric boundary mereings
0.91m = 3 ft 1.22m = 4 ft
