

Preston
City Council

The Council has continued to deliver quality services across the board, despite the extreme challenges of the last two years. Alongside these essential services, significant progress has been made on Council led projects within the overall Harris Quarter Towns Fund Investment Programme, which is a transformational regeneration programme in the city centre.

Delivery and collaboration are common themes running through the Council's priorities, including our Community Wealth Building Strategy, often known as the Preston Model. The Council has been able to progress this important agenda alongside many other key strands of our Fairness Agenda, including initiatives such as the Holiday Markets, Connected Communities and Somewhere Safe to Stay.

Preston City Council's ambitions remain high, and our Councillors are proud to serve this city.

Leader of
Preston City Council
Councillor
Matthew Brown
