**Attachments:** Scope Survey\_Final.pdf

Good afternoon Stephen,

[REDACTED] are very much looking forward to seeing you later and hope this can be the start of a very positive and useful engagement with Emery and Wainhomes over the next few years.

I hope it's not too presumptuous or prescriptive but we have noted a down a few issues /topics that it may be worthwhile touching on although there will probably not be time enough to go into detail at this first discussion. (See below)

Of course we would be very happy to discuss other matters that are of interest or concern to Emery/Wainhomes so please do raise these when we meet. We also recognise that Wainhomes may have previous experience of other local plans in other areas so if you can share the benefit of your experience we would be grateful.

As part of our goal of involving a wide range of stakeholders in our local plan I also attach a survey which we would be grateful if you could fill in and return before the 25<sup>th</sup> May. This should be given Ref number 040 so that we can link it back to Wainhomes.

Best regards

### Wainhomes meeting 12th April ; Barton Village Local Plan

#### a. Local plan progress

- i) Committee group and process
- ii) Questionnaire ; community groups and businesses
- iii) Community engagement examples
  - Cycle paths
  - Public rights of way
